

OmniGrip Coloured Road Surfacing

Ideal for Transit and Bus Lanes

Improved visibility for Cycle Ways

Ideal for School and Speed Zone Identification

OMNIGRIP CST is a durable, skid resistant coloured surfacing system comprised of thermosetting resin compound incorporating specialist synthetic coloured aggregates formulated for application to roads, highways and bridge pavements.

Designed to provide a high definition coloured pavement, OMNIGRIP CST ensures visibly safer colour delineation whilst maintaining high skid resistance in both wet and dry conditions.

Available in both modified epoxy or polyurethane formulated options OMNIGRIP CST is specifically designed to provide a unique depth and performance balancing continued colour retention and skid resistance for the design life of the product.
