

## Cockburn Outer Recreation Area

Visually dynamic, interesting and exciting resin bonded aggregate surfacing

Modern look and feel coloured stone surfacing

Antiskid at Work

### Requirements:

The new Recreation Area, located central to the estate, required a 'fresh and trendy vibe' with high aesthetic and wear characteristics. It needed a modern look and feel to suit the new residential Cockburn Estate.

### Solution:

Antiskid recommended OmniGrip Deco flooring systems that would enhance the very attractive architectural feature and add colour and beauty to the new development for all residents to enjoy.

### Products used:

Omncrete OmniGrip CST and coloured Synthite aggregates

### Project details:

Date: June 2016

Location: Cockburn basket ball area, Perth, Western Australia

Project Manager: Phase3 Landscape Construction

Product supplier: Omncrete Resin Surfacing Systems

Contractor: Antiskid Industries
